Developer name: - Dipak Sinh
Project name: - LockedMe.com
E-mail Id: - singhdk.singh68@gmail.com

Software used in project: -

Operating system: - Windows 11 Home
Processor: - AMD Ryzen 5 5500U
Language: - Java 17
Eclipse IDE Version: - 2022-03 (4.23.0)
Microsoft word: - 2019 Home & Student

Objective: - This project is based on prototype for the organization Lockers Pvt. Ltd. Where user interaction is totally from the command line. In this project we have created below option where user can perform some tasks.

1. Sorting of file available in the directory in ascending order
2. Perform below option inside of directory
 - 2.1. Adding file to the directory
 - 2.2. Searching file from the directory
 - 2.3. Deleting file from the directory
 - 2.4. Added back option to go to main menu
3. Exit from the main console
4. Use Git to push the code into GitHub
5. Create sprint backlog used in this project

I've done the above project as per my best effort in given duration. Used software while creating this project is mention above. Also, what we have done in this project as per the need of company Lockers Pvt. Ltd. Is also mention above.

Please give your proper input for this project.

Thank you so much.
